10. Any participant who turns back or drops out should notify other race participants if possible, and should call Teresa, Pam or Estelle at (907) 291-2339 or the Arctic Getaway B & B at (907) 678-4456; if there is no answer, leave a message. Any participant not finished by midnight on Sunday, April 8, 2012, or who fails to call after dropping out, will be considered overdue.
11. Rescues cannot and will not be promised or offered. We will contact the emergency number supplied by the racer and the Alaska State Troopers. This will be the extent of Wilderness Classic's involvement in any search/rescue effort.
12. Participants are responsible for any expenses incurred for rescues or attempted rescues in their behalf. The Alaskan Alpine Club Mountain Rescue Expense Fund has been suspended at this time due to lack of funding.
13. No cash awards will be given; however, all participants will be issued a 2012 commemorative pack, the cost of which is covered by the event registration fee.
14. Participants are encouraged to travel in groups of two or more for purposes of safety as well as fun (see item 19).
15. Each participant should be independent in terms of gear and food; however, participants may share food and gear with each other. Participants may NOT share gear or food with non-participants.
16. All travel must be self-propelled, without benefit of motorized vehicles, wheels, pack animals or pull animals.
17. All travel must be self-contained. Everything needed must be carried from start to finish without benefit of pre-planned caches, air drops or aid stations. Littering or purposefully dropping gear or food is grounds for disqualification.
18. Participants are not permitted to carry or use any locator/tracking device that is limited to one way communication. Any locator/tracking or other communication devices utilized must have two way communication capability.
19. Participants select their own route. It is important that the route is described on the application form. At least one other individual should be notified if a racer decides to change his or her route. There will be no organized trail sweep.

20. All of the main routes require a steep descent to the Tinayguk River. Participants should bring at least 10 point crampons and consider the following items:

- ice axe
- snow picket and/or ice screw
- 100 ft. 9 mm – 11 mm climbing rope
- rescue pulley
- ascenders
- harness and belay device
- carabiners: 2 locking gate, 4 standard gate

In addition, overflow is often encountered and can freeze NNN style boots to the skis. Skiers using NNN gear may want to carry a small thermos of hot water so that they can melt the ice and release the binding. Participants with 3-pin bindings typically do not have this problem.

21. All roads are out of bounds except the Nolan to Wiseman Road and the road in and out of Anaktuvuk, which may be traveled at the finish of the race to get from Nolan to the Arctic Getaway Bed & Breakfast.
