A word about BCNN style boots and bindings: overflow is often encountered and can freeze the boots into the bindings. Skiers using that BCNNN / BCSN gear may want to carry a small thermos of hot water to melt the ice and release the binding. The boot toe bars are prone to tear out and/or breaking. Once the toe rips out, it is very difficult to reliably strap the boot to a ski. For more guidance on boots and bindings, go to Luc Mehl's ski touring equipment guide webpage at <http://thingstolucat.com/ski-touring-equipment-guide>.

13. Participants are responsible for any expenses incurred for rescues or attempted rescues in their behalf. The Alaskan Alpine Club Mountain Rescue Expense Fund has been suspended at this time due to lack of funding.
14. No cash awards are provided; however, all participants will be issued a 2023 commemorative event garment, the cost of which is covered by the event registration fee.
15. Participants are encouraged to travel in groups of two or more for purposes of safety as well as fun (see item 19). *Also see ANWR CD* Item #39 for additional information.*
16. Each participant should be independent in terms of gear and food; however, participants may share food and gear with each other. Participants may NOT accept gear, food or assistance from non-participants. *Also see ANWR CD* Item #12 and #33 for additional information.*
17. All travel must be self-propelled, without benefit of motorized vehicles, wheels, pack animals or pull animals. *Also see ANWR CD* Item #14, #15, and #16 for additional information.*
18. All travel must be self-contained. Everything must be carried from start to finish without benefit of pre-planned caches, air drops or aid stations. Littering or purposefully dropping gear or food is grounds for disqualification. *Also see ANWR CD* Item #34 for additional information.*
19. Participants are not permitted to carry or use any locator/tracking device that is limited to one-way communication. Any locator/tracking or other communication devices utilized must have two-way communication capabilities.
